DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-12, drawn to a method for making an electrochemical cell, classified in class 29, subclass 623.3.
 - II. Claims 13-20, drawn to a separator layer, classified in class 429, subclass 248.
 - III. Claims 21-29, drawn to an electrochemical cell, classified in class 429, subclass 162.
 - IV. Claims 30-39, drawn to a base layer, classified in class 429, subclass 122.
2. The inventions are distinct, each from the other because of the following reasons: Group IV includes a base layer, which element is not present in any of the other three groups. The separator of Group II is distinct from Groups I and III because the same could be used in a non-electrochemical environment such as in an hydrolysis cell. Finally, the cell of Group III could be made by another and materially different method than that taught by Group I such as by spray-coating the electrodes onto the separator layer.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their different classification and recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Sol Sheinbein on February 6, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1745

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John S. Maples whose telephone number is 703-308-1795. The examiner can normally be reached on Monday-Thursday from 6:15-3:45.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick Ryan can be reached on 703-308-2383. The fax phone numbers for the organization where this application or proceeding is assigned are 703-872-9310 for regular communications and 703-872-9311 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-0661.
